

Lowden Family Home Again

Just as excitement over the naming of Goldstein by President Harding is at its height, Frank A. Lowden, former Governor of Illinois, and his family get back to America, perhaps to figure in the political news of the day. Picture shows the former Governor and his son and Mrs. Lowden and their daughter, Miss Frances, snapped as they were starting ashore when the ocean greyhound, Olympic, reached New York from the other side.

CHARLIE ROBERTSON IN A HERO ROLE

When he pitched a no-hit, no-run game without a man reaching first, this pet of the White Sox didn't realize he would get writer's cramp from autographing baseballs for pretty girl baseball fans, but that is just what happened. The girls kept Charlie busier than his player opponents.

RULING GIVEN ON ASSESSMENT IS IMPORTANT

Owners of Property Should Complete Annual Work by July 1st of This Year.

WASHINGTON, May 22.—As queries continue to come from the west regarding interpretation of the law regulating assessment work on mining claims, the latest opinion on this matter from the general land office, written by Commissioner Spry, will be of interest. The commissioner says, in a letter written May 12: "The act of December 31, 1920 (41 Stat. 1089), extended the period ending December 31, 1920, to June 30, 1921, but expressly provided

That this act shall not in any way change or modify the requirements of existing law as to work to be done or improvements made upon mining claims for the year 1921.

According to this act, the period for 1920 covered 18 months, from January 1, 1920, to June 30, 1921, overlapping six months of the 1921 period; the act of August 24, 1921 (the Hayden bill with the Arentz amendment), also fixed on 18-month period within which to perform the work for 1921, by extending the pe-

riod for 1921 to noon of July 1, 1922, and, in my opinion, if the annual assessment work for 1921 was performed within that year, but prior to July 1, 1921, the next annual period within which to perform the work for 1922 would begin at noon of July 1, 1922, and end at noon July 1, 1923. You are to understand that this is merely an opinion."

BONANZA NEWS IS 18 HOURS AHEAD

Morning newspapers have lost their prestige and the reader who would keep abreast of the times subscribes for the evening publications. The reason is simple. The morning sheets only publish a "rehash" of what has occurred the day previous. The world's events are transmitted by wire to the afternoon papers, 18 hours in advance of the morning publications, so why wait this long period to ascertain what is taking place in this old world. The Bonanza invites comparison, both as regards local and telegraph news.

The state of Lebanon lies to the north of Palestine. It is bounded on the north by the River Kebab, and the eastern boundary is fixed along the hills to the east of Lebanon. Beirut is the chief city and seat of government.

The Bonanza is not afraid and dares print all the news.

MANDATE FROM FRANCE BRINGS NEW ASSEMBLY

Lebanon Celebrates With Fetes Proclamation for Its New Self Government Rule.

(By Associated Press)
BEIRUT, Lebanon, April 28.—(By Mail).—The people of Lebanon have been celebrating with fetes the proclamation of a new constitution for Lebanon and the setting up of a new national assembly under the French mandate. The constitution was proclaimed by General Gouraud, the French high commissioner, affords the country a large measure of self government.

The administrative committee of the Lebanon, which was nominated by France in 1920 for the purpose of cooperation in government affairs in Lebanon has been dissolved and has been succeeded by a representative assembly whose members are all elected by the people.

There are 30 members in the national assembly. In accordance with the French electoral law which was promulgated in Syria, there is allowed one deputy for every 20,000 inhabitants. The census just completed shows the population of Lebanon to number 600,000.

The constitution affords the national assembly absolute power over legislation, taxation, education and welfare institutions. France, however, retains control over foreign and military affairs.

The extremists are naturally dissatisfied with the provisions of the constitution and ask for no less than complete independence. "We are worthy of independence and well qualified for it," declared the mayor of Aintab, in a speech protesting against the new organic laws. "When Palestine, Syria and Mesopotamia were still under the actual sway of Turkey, Mr. Lebanon had a privileged system of government, which afforded a wide scope of freedom. Why cannot we have the same privileges now?"

The liberals, however, who form the majority of the population, although not altogether satisfied with the constitution, still consider it a great step forward in their onward march to free statehood. Their leaders remind the opposition of the fact that the country is still under mandate according to Article 22 of the pact of the league of nations, and therefore, still under tutelage. One journal remarked: "France, in granting us such a liberal constitution,
